

## Secure Remote Access ARCHITECTURE

## Centrally Manage and Secure Remote Access For Service Desks, IT Admins, and Vendors

BeyondTrust's Secure Remote Access solutions enable organizations to apply least privilege and robust audit controls to all remote access required by employees, vendors, and service desks.

Guarantee adoption with a system that actually lets users do their jobs faster and easier than they do today.

BeyondTrust is the worldwide leader in Privileged Access Management (PAM), empowering organizations to secure and manage their entire universe of privileges. Our integrated products and platform offer the industry's most advanced PAM solution, enabling organizations to quickly shrink their attack surface across traditional, cloud and hybrid environments. | **beyondtrust.com**
